- American Gynecological Society, transactions of eighty-third annual meeting, 833
- Aminopeptidase activity, plasma (oxytocinase) in pregnancy and labor (Titus et al.), 1124
- Analgesia and anesthesia, caudal, continuous, in obstetrics (Friedman, Schantz, and Pace), 1181
- lumbar epidural, and promazine (Sparine), pelvic floor repair under (Delaney), 1033 (Abst.)
- Anemias of pregnancy, refractory (Holly), 946
- Anencephalics, electroencephalographic studies in (Bernstine and Borkowski), 1151
- Anencephaly and other congenital abnormalities (Pleydell), 618 (Abst.)
- Anesthesia, 1173-1191
- analgesia and, caudal, continuous, in obstetrics (Friedman, Schantz, and Pace), 1181
- lumbar peridural, continuous, in obstetrics (Hehre and Sayig), 1173
- operation and, coagulation time during, shortening, meaning of prothrombin, antithrombin, and fibrinogen during (Wille), 405 (Abst.)
- Anesthetic infusion, local, control of immediate postoperative pelvic pain by (McDonough and Bulaong), 466
- Anomaly, congenital, 70-79
- Anoxia, during labor and immediately after birth, effect, on subsequent development of child (Benaron et al.), 1129
- effects, on metabolism of human placenta *in vitro* (Roux and Villee), 224
- Antibody, anti-A and anti-B, elution, from erythrocytes of incompatible newborn infants (McElfresh et al.), 398 (Abst.)
- Antiemetic, new, Postafene, experience with, in gynecology (Wolffram), 403 (Abst.)
- Antisera to human chorionic gonadotropin, preparation and use (McKean), 596
- Antithrombin and fibrinogen, prothrombin and, meaning, in shortening coagulation time during operation and anesthesia (Wille), 405 (Abst.)
- Arteriography, femoral, use, in assessment of bleeding in pregnancy (Bernstine et al.), 1161
- Audiogenic stimulation, effect, on genital function and reproduction (Zondek and Tamari), 1041
- Autonomic reactivity, potassium-calcium ratio and, in pregnancy (Ruck), 830 (Abst.)
- regulation in labor (Ruck), 830 (Abst.)

- Autopsy comparison of cardiovascular changes in castrated and normal women (Novak and Williams), 863
Axial torsion of pregnant uterus (Nowosielski and Henderson), 272
Azotemia, prerenal, and hyatidiform mole (Schulman), 180

B

- Barbiturates in brain of human fetus, studies on accumulation (Persson), 1224 (Abst.)
Barrier, maternal-fetal (Reilly), 391 (Re-evaluation)
Bibliographic omission (Greenberg), 621 (Correspondence) (reply) (Taylor), 621 (Correspondence)
Biliary stasis, treatment, in latter half of pregnancy (Muscillo and Giorlando), 545
Bioflavonoid compounds in Rh-immunized women (Jacobs), 825 (Abst.)
Biopsies, endometrial, in office (Burge and Morley), 325
Biopsy, cervical, 53-63
Biopsy-hysterectomy sequence, cervical cone, and factors affecting febrile morbidity (Cavanagh and Rutledge), 53
Births of twins, sixty-five-day interval between (Drucker, Finkel, and Savel), 761
Bladder fistula, keeping patient dry (Burrus), 390
Bleeding, functional, diagnosis and classification (Leinzinger), 826 (Abst.)
in pregnancy, femoral arteriography in assessment (Bernstine et al.), 1161
Blood, cord, and fetal circulation, detection of trophoblast in (Salvaggio, Nigogosyan, and Mack), 1013
oxygen tension in, after normal delivery (Sjöstedt, Rooth, and Caligara), 1223 (Abst.)
oxygen in newborn infant, relation of oxygen administration to mother to (McClure), 554
pressure, high, and pregnancy (Townsend), 1220
progesterone levels in relation to parturition (Short), 1036 (Abst.)
studies, fetal (Prystowsky, Hellegers, and Bruns), 825 (Abst.)
vessels, abnormal subendothelial, intractable uterine hemorrhage due to, after childbirth and miscarriage (Salm and Simons), 1031 (Abst.)
volume changes in pregnancy and puerperium (Pritchard, Wiggins, and Dickey), 956
of infants (Sisson and Whalen), 398 (Abst.)
Book reviews, 190, 611, 1218
Books received, 193, 614, 823, 1222
Bradford experiment (Theobald), 618 (Abst.)
Brain of human fetus, barbiturates, studies on accumulation (Persson), 1224 (Abst.)
Breast cancer detected by routine physical examination (Holleb et al.), 824 (Abst.)
effect of pituitary stalk section on adrenal function of women with (Van Wyk et al.), 1034 (Abst.)
engorgement and lactation, postpartum, prevention, hormones used in, comparative controlled study (Markin and Wolst), 128
Breathing pattern of newborn infant, effects of pregnancy and labor on (Calkins and Miller), 933
Brenner tumor of ovaries, bilateral (Kendall and Bowers), 439
(Farrar and Greene), 1089
Broad ligament, pouches and fenestrae in, intestinal obstruction associated with (Papap), 172
Bruit placentaire (Winkelbauer and Tatum), 1022 (Re-evaluation)

C

- Calcium, potassium-, ratio and autonomic reactivity in pregnancy (Ruck), 830 (Abst.)
Canada, transactions of the Society of Obstetricians and Gynaecologists of, fifteenth annual meeting, 1

- Canadian Society for the Study of Fertility, 623 (Item)
Cancer (*see also* Carcinoma)
breast, detected by routine physical examination (Holleb et al.), 824 (Abst.)
effect of pituitary stalk section on adrenal function of women with (Van Wyk et al.), 1034 (Abst.)
of cervix, 775-812
intraepithelial (Stage 0) (Parker et al.), 693
long-term follow-up observations in (Arneson and Williams), 775
pelvic exenteration for, team approach (Mikuta and Murphy), 795
postmortem findings (Sotto, Graham, and Pickren), 791
radioactive gold for (Taylor, Isbell, and Dean), 899
chemotherapeutic agent, sodium cyanide as (Brown, Wood, and Smith), 907
corpus, treatment, selection of (Gusberg, Jones, and Tovell), 374
nitrogen mustard, pelvic perfusion with, for neurological complication (Sholes), 481
of ovary, primary (Kent and McKay), 430
Candidiasis, rapid method for office diagnosis of (Goldberg), 186 (Pertinent comments)
Carbohydrate metabolism in pregnancy (Freinkel and Goodner), 824 (Abst.)
Carbohydrates, transfer, across guinea pig placenta (Folkart, Dancis, and Money), 221
Carcinoma (*see also* Adenocarcinoma, Cancer, Choriocarcinoma)
of cervix, metastases, distribution (Henriksen), 919
pelvic lymphadenectomy for (Claiborne, Thornton, and Wilson), 672
Stage I (Lock, Greiss, and Blake), 984
urologic study in management, value (Burns, Everett, and Brack), 997
of diverticulum of female urethra (Melnick and Birdsall), 347
of endometrium, 374
of Fallopian tube, 64-69
primary (Jefferiss), 616 (Abst.)
(Krugman and Fisher), 722
(Mozley and Baker), 64
hydrops tubae profluens as presenting symptom (Sinha), 616 (Abst.)
of ovary, hypernephroid (Welch and Hellwig), 426
mesonephric clear cell, clinical and pathologic study (Parker, Dockerty, and Randall), 417
of uterine tube, primary (Roddick and Danforth), 67
of vagina and urethra, 341-364
delay period (Lang, Menduke, and Golub), 341
Carcinomas of cervix, vagina, and vulva, squamous cell, multiple, theory of multicentric origin (Marcus), 802
ovarian, primary, bilateral (Lee and Bowers), 1083
Cardiovascular changes in castrated and normal women, autopsy comparison (Novak and Williams), 863
effects, renal and, induced by intravenous infusion of magnesium sulfate (Kelly et al.), 1033 (Abst.)
Castrated and normal women, cardiovascular changes in, autopsy comparison (Novak and Williams), 863
Cathepsine activity in cellular fraction of placenta in toxemia and postmaturity (Stark), 405 (Abst.)
Caudal analgesia and anesthesia in obstetrics, continuous (Friedman, Schantz, and Pace), 1181
Ceroid in placenta (Ishizaki), 245
Cervical biopsy, 53-63
cancer, long-term follow-up observations (Arneson and Williams), 775
cone biopsy-hysterectomy sequence and factors affecting febrile morbidity (Cavanagh and Rutledge), 53
conization, evaluation (Hester and Read), 715

Cervical—Cont'd

- effacement, connective tissue changes incident to (Danforth, Buckingham, and Roddick), 939
- epithelial changes, human, produced by podophyllin (Kaminetzky), 1055
- epithelium, atypical, evaluation (Hohlbein and Krimmenau), 403 (Abst.)
- studies, 1055-1082
- operations, obstetrical complications after (Radman), 768
- squamous mucosa, normal and abnormal, protein characterization in—pH signature (Wheatley and Foraker), 1074
- Cervix, cancer (*see* Cancer of the cervix)
- endometriosis, common disease (Williams), 734
- epithelium, normal and malignant, acridine orange fluorochrome in study of (Kaplan et al.), 1063
- Hodgkin's sarcoma (Retikas), 1104
- surgical investigation, with trachelotome (Spencer and Benson), 60
- Cesarean section complicated post partum by volvulus (Sieglar and Rogatnick), 551
- Chemistry of ovarian cyst contents (Odin), 195 (Abst.)
- Chemotherapeutic agent, cancer, sodium cyanide as (Brown, Wood, and Smith), 907
- Child, surgeon and (Potts), 190 (B. rev.)
- Childbirth and miscarriage, abnormal subendothelial blood vessels after, intractable uterine hemorrhage due to (Salm and Simons), 1031 (Abst.)
- Children of mothers with toxemia (Sheele, Kyank, and Trommer), 829 (Abst.)
- Choline, protein and, deficient pregnant rats, periplacental hemorrhage and renal necrosis in, after progesterone (Moore), 1203
- Chorioadenoma destruens (Acosta-Sison), 176
- in a uterus duplex bicornis (Kern and Henriksen), 532
- and hydatidiform mole, 176-183
- Choriocarcinoma, hydatidiform mole and, iodine metabolism in (Dowling, Ingbar, and Freinkel), 197 (Abst.)
- metastasizing, methotrexate in treatment (Buckle), 617 (Abst.)
- pathological diagnosis from endometrial scraping (Sta. Cruz), 399 (Abst.)
- Chorionepithelioma and mole, 516-535
- Chorionic gonadotropin, human, antisera to, preparation and use (McKean), 596
- in vitro response of mouse testis to (Lostroh), 404 (Abst.)
- Chromosomal abnormalities in father and Mongol child (Fraccaro, Kaijser, and Lindsten), 1038 (Abst.)
- Chromosomes, 46, Mongol girl with (Polani et al.), 1037
- in an ovarian teratoma (Galton and Benirschke), 198 (Abst.)
- 69 (triploidy), malformation syndrome in man associated with (Böök and Santesson), 1039 (Abst.)
- Circulation, fetal, cord blood and, detection of trophoblast in (Salvaggio, Nigogosyan, and Mack), 1013
- Clearance, Na^{24} uterine muscle, in late pregnancy (Landesman and Knapp), 92
- Clinical conference, 1209
- experience, 1124-1153
- problems, 601
- Clostridium welchii sepsis, postabortal, pathologic physiology and treatment (Davenport and Oken), 512
- Coagulation time, shortening, during operation and anesthesia, meaning of prothrombin, antithrombin, and fibrinogen in (Wille), 405
- Colporrhaphy, anterior, adequate, for relief of stress incontinence (Parrott), 381
- Colposcopy, introduction (Bolton), 190 (B. rev.)
- Colpotomy, posterior, use, in diagnosis and treatment of ectopic pregnancy and other lesions of pelvis (Wooten), 727
- Complications of pregnancy, medical, 145-166
- surgical, 167-175
- Cone biopsy-hysterectomy sequence, cervical, and factors affecting febrile morbidity (Cavanagh and Rutledge), 53
- Congenital abnormalities, anencephaly and other (Pleydell), 618 (Abst.)
- severe, growing incidence (de Ruder), 1033 (Abst.)
- defects, 70-79
- malformation rates, race-specific (Frazier), 184 (Pertinent comments)
- Conization, cervical, evaluation (Hester and Read), 715
- Connective tissue changes incident to cervical effacement (Danforth, Buckingham, and Roddick), 939
- Conservatism in management of fetal distress (Walker), 617 (Abst.)
- Contractions, uterine, in labor, intensity and frequency, effect of position changes on (Caldeyro-Barcia et al.), 284
- Cord blood and fetal circulation, detection of trophoblast in (Salvaggio, Nigogosyan, and Mack), 1013
- oxygen tension in, after normal delivery (Sjöstedt, Rooth, and Caligara), 1223 (Abst.)
- umbilical, human, length (Walker and Pye), 1224 (Abst.)
- Coronary artery disease and serum lipid levels, effect of bilateral ovariectomy on (Oliver and Boyd), 400 (Abst.)
- Corpus albicans, fate, morphologic approach (Joel and Foraker), 314
- cancer, treatment, selection of (Gusberg, Jones, and Tovell), 374
- Correspondence, 200, 408, 621
- Cortisol, influence of estrogen on secretion, disposition, and biologic activity (Robertson, Stiefel, and Laidlaw), 197 (Abst.)
- Cortisone or hydrocortisone, small dose, treatment of ovarian dysfunction with (Jefferies and Levy), 196 (Abst.)
- treatment, preliminary, early repair of vesicovaginal fistula with, results (Collins, Pent, and Jones), 1005
- Craniotomy in a pregnant woman, hypothermia and hypotension during (Wilson and Sedzimir), 199 (Abst.)
- Creatinine transport between baby and mother at term (McGaughey et al.), 108
- Culdoscopy (Brown and Crocker), 25
- Cullen, Thomas Stephen, presidential address (Martzloff), 833
- Current therapy—1960 (Conn), 611 (B. rev.)
- Cushing's syndrome, bilateral adrenalectomy for, successful pregnancy after (Brownley, Warren, and Parson), 628
- Cyanide, sodium, as cancer chemotherapeutic agent (Brown, Wood, and Smith), 907
- Cycle, menstrual, urinary pregnanetriol throughout (Pickett et al.), 401 (Abst.)
- Cyst, ovarian, contents, chemistry of (Odin), 195 (Abst.)
- Cytology, vaginal, and histology, endometrial, correlation (Liu), 321

D

- Dehydrogenase, lactic, glutamic oxalacetic transaminase and (Stone et al.), 104
- Delay period in carcinoma of vagina (Lang, Menduke, and Golub), 341
- Delivery and neonatal period, nonprotein nitrogen following (Rimbach and Bonow), 407 (Abst.)
- normal, oxygen tension in cord blood after (Sjöstedt, Rooth, and Caligara), 1223 (Abst.)
- spontaneous, spontaneous rupture of uteroovarian vein during (Shuey), 764
- pregnancy and, after extensive vulvectomy (Collins et al.), 167
- tuberculosis in (Schwarz), 826 (Abst.)

- Diabetes, alloxan-induced, effect, on pregnancy of rats (Love, Kinch, and Stevenson), 536
Diabetic mothers, infants of (Rose), 1032 (Abst.)
 electrocardiogram (Page et al.), 398 (Abst.)
 women, pregnancy in, management, critical analysis (McLendon and Bottomy), 641
Diuretic treatment of fluid retention in toxemia of pregnancy (Friedberg), 195 (Abst.)
Diverticulum of female urethra, carcinoma (Melnick and Birdsall), 347
Dysgenetic ovaries, adrenal cortical and Leydig cell nodules in (Dougherty and Thompson), 317
Dysgerminoma, ovarian (Jackson), 442
Dysmenorrhea and unilateral gynatresia in double uterus (Merckel, Sucoff, and Sender), 70

E

- Eclampsia (*see also* Toxemia of pregnancy)
 management (Adams and Cameron), 253
 pre-eclampsia and its relation to (Bohm and Bruch), 828 (Abst.)
Ectopic pregnancy, 274-283
 and other lesions of pelvis, use of posterior colpotomy in diagnosis and treatment (Wooten), 727
Ejection pressure, milk, direct measurement, in unanesthetized lactating humans (Friedman), 119
Electrocardiogram, fetal, diagnosis of fetal life with (Larks et al.), 1143
 influence of postspinal hypotension on (Ebner, Barcohana, and Bartoshuk), 569
 in infants of diabetic mothers (Page et al.), 398 (Abst.)
Electroencephalographic studies in anencephalics (Bernstine and Borkowski), 1151
Electronic evaluation of fetal heart rate (Hess and Hon), 558
Endocrine gland function, variations in postpartum pituitary necrosis (Smith and Howard), 197 (Abst.)
Endocrinology, 454-465
 clinical (Astwood), 1219 (B. rev.)
Endometrial biopsies in office (Burge and Morley), 325
 histology, vaginal cytology and, correlation (Liu), 321
 hyperplasia, experimental, effect of testosterone on (Alvizouri), 459
 scraping, pathological diagnosis of choriocarcinoma from (Sta. Cruz), 399 (Abst.)
Endometriosis of cervix uteri—common disease (Williams), 734
 stromal, with possible ovarian origin (Benjamin and Campbell), 449
Endometritis, pneumopolycystic (Perkins), 332
Endometrium, 321-340
 adenocarcinoma, managed by preoperative irradiation, end results (Montgomery et al.), 972
 Stein-Leventhal syndrome with associated (Andrews and Andrews), 632
 carcinoma, 374
 histopathology, effect of radiation opaque, water-soluble medium on (Jones and Woodruff), 337
 nonreacting, transplantation of fetal membranes in secondary amenorrhea (Furuhjelm), 194 (Abst.)
Engorgement, breast, and lactation, postpartum prevention, hormones use in, comparative controlled study (Markin and Wolst), 128
Environmental factors, fetal, parental, and, associated with perinatal mortality in mothers under 20 years of age (Donnelly et al.), 663
Epilepsy and pregnancy (Dimsdale), 617 (Abst.)
Episiotomies, median, and complete perineal lacerations (Barter, Parks, and Tyndal), 654
Epithelial changes, cervical, human, produced by podophyllin (Kaminetzky), 1055
Epithelium, cervical, atypical, evaluation (Hohlbein and Krimmenau), 403 (Abst.)

Epithelium—Cont'd

- normal and malignant, acridine orange fluorochrome in study of (Kaplan et al.), 1063
 studies, 1055-1082
 puerperal vaginal, reactivity, to local estrogenic therapy (Luz), 463
Erythroblastoses, fetal, serology (Speiser), 826 (Abst.)
 Rh, and ABO incompatibility (Caughey), 577
Escherichia coli isolated from vagina, frequency and significance (Pérez-Miravete and Jaramillo), 80
Estrinism in a girl 2½ years of age (Coppedge and Hasty), 637
Estriol, urinary, excretion in pregnancy (Zondek and Pfeifer), 194 (Abst.)
Estrogen, effect, on metabolism and protein binding of hydrocortisone (Mills et al.), 1035 (Abst.)
 on steroid levels in plasma and urine (Herrmann, Schindl, and Bondy), 404 (Abst.)
 influence, on secretion, disposition, and biologic activity of cortisol (Robertson, Stiefel, and Laidlaw), 197 (Abst.)
 levels, low, role, in evaluating various forms of female infertility (Medina and Müller), 830 (Abst.)
Estrogenic therapy, local, reactivity of puerperal vaginal epithelium to (Luz), 463
Estrone-C¹⁴-16 sulfate in women, metabolism of (Twombly and Levitz), 889
Exenteration, pelvic, details of, experience with 75 cases (Schmitz et al.), 43
Experiments, clinical, 1124-1153

F

- Fallopian tube, carcinoma, 64-69
 primary (Jefferiss), 616 (Abst.)
 (Krugman and Fisher), 722
 (Mozley and Baker), 64
 hydrops tubae profluens as presenting symptom (Sinha), 616 (Abst.)
 ovum going through, independent (Friz and Mey), 827 (Abst.)
 tuberculosis, pregnancy after (Johnston and Liggett), 401 (Abst.)
Family health clinic, prenatal and pediatric findings (Babbott, Stitt, and Salber), 305
Fatty acids, plasma nonesterified, in pregnancy (Burt), 965
 metamorphosis of liver, acute, in pregnancy, complicating toxemia (Nardone, Stroup, and Gill), 258
Febrile morbidity, factors affecting, cervical cone biopsy-hysterectomy sequence and (Cavanagh and Rutledge), 53
Feminizing syndrome, testicular, in male pseudohermaphroditism (Zuspan), 454
Femoral arteriography in assessment of bleeding in pregnancy (Bernstine et al.), 1161
Fenestrae, pouches and, in broad ligament, intestinal obstruction associated with (Papay), 172
Fertility, improved, varicocele ligation with (Scott), 1036 (Abst.)
 mumps and, in women (Stamvolovic, Mirjanic, and Jeric), 406 (Abst.)
Fetal blood studies (Prystowsky, Hellegers, and Bruns), 825 (Abst.)
 circulation, cord blood and, detection of trophoblast in (Salvaggio, Nigogosyan, and Mack), 1013
 distress, conservatism in management (Walker), 617 (Abst.)
 electrocardiogram, diagnosis of fetal life with (Larks et al.), 1143
 influence of postspinal hypotension on (Ebner, Barcohana, and Bartoshuk), 569
 erythroblastoses, serology of (Speiser), 826 (Abst.)
 heart rate, electronic evaluation (Hess and Hon), 558

Fetal—Cont'd

- life, diagnosis, with fetal electrocardiogram (Larks et al.), 1143
- masculinizing action of certain oral progestins (Grumbach, Ducharme, and Moloshor), 196 (Abst.)
- membranes, transplantation, in secondary amenorrhea, caused by nonreacting endometrium (Furuhjelm), 194 (Abst.)
- parental, and environmental factors associated with perinatal mortality in mothers under 20 years of age (Donnelly et al.), 663
- presentation, transverse (Kramer and Skalley), 291
- skull and brain, effect of vacuum extractor on (Fulst), 831 (Abst.)
- Fetus, human, brain, barbiturates in, accumulation (Persson), 1224 (Abst.)
 - oxygen supply to (Walker and Turnbull), 612 (B. rev.)
- and newborn, 554-595
 - heart, monitoring (MacRae), 399 (Abst.)
 - placenta and (Hepner and Bowen), 195 (Abst.)
- Fibrinogen, plasma, determination, rapid method (Adamis), 404 (Abst.)
 - prothrombin, antithrombin and, meaning, in shortening coagulation time during operation and anesthesia (Wille), 405 (Abst.)
- Fistula, bladder, keeping patient dry (Burrus), 390
 - vesicovaginal, early repair, with preliminary cortisone treatment, results (Collins, Pent, and Jones), 1005
- Flora, vaginal, studies (Pérez-Miravete and Jaramillo), 80
- Fluid retention, diuretic treatment, in toxemia of pregnancy (Friedberg), 195 (Abst.)
- Fluorochrome, acridine orange, in study of normal and malignant epithelium of cervix (Kaplan et al.), 1063
- Fluoxymesterone, suppression of lactation with (Bare and Lippo), 138
- Folic acid deficiency in pregnancy (Chararin et al.), 400 (Abst.)
- Functional bleeding, diagnosis and classification (Leinzinger), 826 (Abst.)
- Fundus, uterine, wedge resection of, in therapy of intractable menorrhagia (Dill and Jeffrey), 472

G

- Generalists' obstetrics, analysis (Miller), 813 (Pertinent comments)
- Genetic analysis, trends (Pontecorvo), 1219 (B. rev.)
- Genital function and reproduction, effect of audiogenic stimulation on (Zondek and Tamari), 1041
 - tumors, three, in one woman (Sharma, Shrivastava, and Agarwal), 1111
- Genitals, ambiguous external, male intersex with, and well-developed Müllerian elements (Bradbury and Bunge), 76
- Gestation (*see also* Pregnancy)
 - human, effects of mercury on (Afonso and de Alvarez), 145
 - 'six months', complicated by pyocolpos (Kirkley, Gilbert, and McDaniel), 625
- Glands, paraurethral, adenocarcinoma (DeHaan and Johnson), 1198
- Glutamic oxalacetic transaminase and lactic dehydrogenase in pregnancy (Stone et al.), 104
- Gold, radioactive, for cervical cancer (Taylor, Isbell, and Dean), 899
- Gonadotropin, chorionic, human, antisera to, preparation and use (McKean), 596
 - in vitro response of mouse testis to (Lostroh), 404 (Abst.)
- Gravid uterus, rupture (Howard), 622 (Correspondence)
- Guatemalan pregnant women from two socioeconomic groups, serum lipids and protein-bound iodine levels (Méndez et al.), 114
- Gunshot wound of pregnant uterus (Beattie and Daly), 722
- Gynatresia, unilateral, dysmenorrhea and, in double uterus (Merkel, Sucoff, and Sender), 70
- Gynecologic, obstetric and, diseases (Krokfors), 1222 (Abst.)
 - operations (Käser and Iklé), 1220, (B. rev.)
 - internal hemorrhage following (Wesley), 6
 - typical (Tapfer), 611 (B. rev.)
 - pediatric, examining instrument, new, use in diagnosis of pediatric vaginitis (Hammond), 85
 - therapy (Novak), 613 (B. rev.)
- Gynecology (Martius), 1220 (B. rev.)
 - fundamentals (Behrman and Gosling), 612 (B. rev.)
 - hormone therapy in (Hoffman), 613 (B. rev.)
 - obstetrics and, combined textbook (Baird), 614 (B. rev.)
 - society, New York City, new, 1226 (Item)
 - for study and practice (Schroeder), 613 (B. rev.)
 - textbook (Gray), 613 (B. rev.)
- Gynecomastia, transient recurrent, after removal of estrogen-secreting interstitial cell tumor of testis (Diczfalusy et al.), 196 (Abst.)

H

- Hand-Schüller-Christian disease and pregnancy (Trimble), 408 (Correspondence)
- Heart of fetus and newborn, monitoring (MacRae), 399 (Abst.)
 - rate, fetal, electronic evaluation (Hess and Hon), 558
- Hemophilia A in "girl" with male sex chromatin pattern (Nilsson et al.), 399 (Abst.)
- Hemorrhage, internal, after gynecological operations (Wesley), 6
 - periplacental, and renal necrosis in protein and choline deficient pregnant rats after progesterone (Moore), 1203
 - uterine, intractable, due to abnormal subendothelial blood vessels after childbirth and miscarriage (Salm and Simons), 1031 (Abst.)
- Heredity counseling (Hammons), 1218 (B. rev.)
 - human (Montagu), 612 (B. rev.)
- Hirsutism, simple, treatment, and Stein-Leventhal syndrome (Mattingly, Mills, and Prunty), 1225 (Abst.)
 - urinary ketosteroids and pregnanetriol in (Lipsett and Riter), 1034 (Abst.)
- Histology, endometrial, and cytology, vaginal, correlation (Liu), 321
- Hodgkin's sarcoma of cervix (Retikas), 1104
- Hormone therapy in gynecology (Hoffmann), 613 (B. rev.)
- Hormone-cytology of vagina and pregnanediol excretion in urine for prognosis of threatened abortion (Timonen and Göltner), 406 (Abst.)
- Hormones (Ammon and Dirscherl), 1219 (B. rev.)
 - use in prevention of postpartum breast engorgement and lactation, comparative controlled study (Markin and Wolst), 128
- Human heredity (Montagu), 612 (B. rev.)
- Hydatidiform mole, chorioadenoma and, 176-183
 - and choriocarcinoma, iodine metabolism in (Dowling, Ingbar, and Freinkel), 197 (Abst.)
 - following chorioadenoma destruens (Acosta-Sison), 176
 - prerenal azotemia and (Schulman), 180
 - relation to malignant disease of trophoblast (Schiffer, Pomerance, and Mackles), 516
- Hydrocortisone, cortisone or, small doses, treatment of ovarian dysfunction with (Jefferies and Levy), 196 (Abst.)
 - metabolism and protein binding of, effect of estrogen on (Mills et al.), 1035 (Abst.)
- Hydrops tubae profluens as presenting symptom in primary carcinoma of Fallopian tube (Sinha), 616 (Abst.)

- Hyperbilirubinemia in premature infants and effect of vitamin K (Corner, Berry, and Neale), 1037 (Abst.)
- Hyperemia test, rat, to determine ovulation time (Dresner and Cohen), 1049
- Hypernephroid carcinoma of ovary (Welch and Hellwig), 426
- Hyperplasia, endometrial, experimental, effect of testosterone on (Alvizouri), 459
- Hypofibrinogenemia after normal pregnancy and labor (Quinlivan), 1032 (Abst.)
- Hypotension, postspinal, influence, on fetal electrocardiogram (Ebner, Barcohana, and Bartoshuk), 569
- Hypotensive symptom-complex in obstetrics and gynecology, importance (Fekete), 406 (Abst.)
- syndrome, supine, and abruptio placentae (Robbins, Estrara, and Russell), 1207
- Hypothermia and hypotension during craniotomy in a pregnant woman (Wilson and Sedzimir), 199 (Abst.)
- Hysterectomy, abdominal, total, new instrument for incising vaginal cuff during (Pace), 470
- after cervical cone biopsy, and factors affecting febrile morbidity (Cavanagh and Rutledge), 53

I

- Icterometer, Perspex, for neonates (Gosset), 402 (Abst.)
- Incompatibility, ABO, Rh erythroblastosis and (Caughey), 577
- Incontinence, stress, colporrhaphy, anterior, for (Parrott), 381
- operation for, assured success (Becker), 406 (Abst.)
- urinary, 381-390
- Infants, blood volume (Sisson and Whalen), 398 (Abst.)
- of diabetic mothers (Rose), 1032 (Abst.)
- electrocardiogram in (Page et al.), 398 (Abst.)
- newborn, blood oxygen in, oxygen administration to mother and its relation to (McClure), 554
- breathing pattern, effects of pregnancy and labor on (Calkins and Miller), 933
- incompatible, elution of anti-A and anti-B antibody from (McElfresh et al.), 398 (Abst.)
- jaundice in, depth (Cully, Waterhouse, and Wood), 402 (Abst.)
- premature, hyperbilirubinemia in, and effect of synthetic vitamin K (Corner, Berry, and Neale), 1037 (Abst.)
- Infection and reinfection in yeast vulvovaginitis, mode (de Sousa and Uden), 1096
- urinary tract, sulfamethoxypyridazine (Kynex) in (Wargo, Teichner, and Ferguson), 490
- Inferior vena cava, ligation, in early pregnancy (Rubin), 542
- Infertility, female, role of low estrogen levels in evaluating various forms (Medina and Müller), 830 (Abst.)
- symposium, 623 (Items)
- Instrument, new, for incising vaginal cuff during total abdominal hysterectomy (Pace), 470
- pediatric gynecologic, new examining, use in diagnosis of pediatric vaginitis (Hammond), 85
- Insufficiency, renal, reversible (Atlas and Gaberman), 190 (B. rev.)
- Intersex, male, with ambiguous external genitals and well-developed Müllerian elements (Bradbury and Bunge), 76
- Interstitial and intrauterine pregnancy (Vartan), 200 (Correspondence)
- (reply) (Bisca), 200 (Correspondence)
- Interval, sixty-five-day, between births of twins (Drucker, Finkel, and Savel), 761
- Intestinal obstruction associated with pouches and fenestrae in broad ligament (Papap), 172

- Intraepithelial (Stage 0) cancer of cervix (Parker et al.), 693
- Intrauterine stem pessary, use (Eddy and Ruiz-Bueno), 1025 (Re-evaluation)
- Inversion of uterus, nonpuerperal, acute (Webster), 478
- Iodine levels, protein-bound, serum lipids and, of Guatemalan pregnant women from two socioeconomic groups (Méndez et al.), 114
- metabolism in hydatidiform mole and choriocarcinoma (Dowling, Ingbar, and Freinkel), 197 (Abst.)
- Iodo-antipyrine, sodium and, transfer, across guinea pig placenta, in situ perfusion technique (Dancis and Money), 215
- Irradiation, preoperative, adenocarcinoma of endometrium managed by, end results (Montgomery et al.), 972
- Isotope localization of placenta in suspected placenta previa (Visscher and Baker), 1154
- Items, 201, 410, 623, 832, 1040, 1228

J

- Jaundice in newborn infants, depth (Cully, Waterhouse, and Wood), 402 (Abst.)

K

- Ketosteroids, urinary, and pregnanetriol in hirsutism (Lipsett and Riter), 1034 (Abst.)
- Kynex (sulfamethoxypyridazine) in urinary tract infections (Wargo, Teichner, and Ferguson), 490

L

- Labor, anoxia during, and immediately after birth, effect, on subsequent development of child (Benaron et al.), 1129
- autonomic regulation in (Ruck), 830 (Abst.)
- pregnancy and, effects, on breathing pattern of newborn infant (Calkins and Miller), 933
- normal, hypofibrinogenemia after (Quinlivan), 1032 (Abst.)
- plasma aminopeptidase activity (oxycytinase) in (Titus et al.), 1124
- problems, 284-304
- prolonged, necessary evil? (McCall and Hara), 296
- rupture of uterus in (Wilken), 405 (Abst.)
- uterine contractions in, intensity and frequency, effect of position changes on (Caldeyro-Barcia et al.), 284
- Lacerations, perineal, complete, median episiotomies and (Barter, Parks, and Tyndal), 654
- fourth degree, and their sequelae (Brantley and Burwell), 711
- Lactating humans, unanesthetized, milk ejection pressure in, direct measurement (Friedman), 119
- Lactation, 119-127
- breast engorgement and, postpartum, prevention, hormones used in, comparative controlled study (Markin and Wolst), 128
- with phenothiazine derivative (Temaril) (Johnson et al.), 124
- suppression, 128-144
- with fluoxymesterone (Bare and Lippon), 138
- Lactic dehydrogenase, glutamic oxalacetic transaminase and, in pregnancy (Stone et al.), 104
- Laxative study, double-blind, on postpartum patients (Zuspan), 548
- Legal abortion in Sweden (Aren), 615 (Abst.)
- Leydig cell nodules, adrenal cortical and, in dysgenetic ovaries (Dougherty and Thompson), 317
- Ligament, broad, pouches and fenestrae in, intestinal obstruction associated with (Papap), 172

- Ligation, varicocele, and improved fertility (Scott), 1036 (Abst.)
- Lipids, serum, and protein-bound iodine levels of Guatemalan pregnant women from two socioeconomic groups (Méndez et al.), 114
- Liquor amnii, proteins of (Abbas and Tovey), 619 (Abst.)
- Listeriosis, miscarriages, repeated, and (Rost, Paul, and Seeliger), 195 (Abst.)
- Lithopedion, abdominal, retained 13 years (Woodbury and Jarrett), 590
- Liver, fatty metamorphosis of, acute, in pregnancy, complicating toxemia (Nardone, Stroup, and Gill), 258
- function during normal pregnancy, alterations in (McNair and Jaynes), 500
- rupture, spontaneous, during pregnancy (Weingold and Thompson), 155
- Lumbar epidural analgesia and promazine (Sparine), pelvic floor repair under (Delaney), 1033 (Abst.)
- peridural anesthesia in obstetrics, continuous (Hehre and Sayig), 1173
- Lymphadenectomy, pelvic, for carcinoma of uterine cervix (Claiborne, Thornton, and Wilson), 672
- Lymphangioma of uterus, cavernous (Salm), 365

M

- Magnesium sulfate, renal and cardiovascular effects induced by intravenous infusion of (Kelly et al.), 1033 (Abst.)
- Male intersex with ambiguous external genitals and well-developed Müllerian elements (Bradbury and Bunge), 76
- pseudohermaphroditism, testicular feminizing syndrome in (Zuspan), 454
- Malformation rates, congenital, race-specific (Frazier), 184 (Pertinent comments)
- syndrome in man associated with triploidy (69 chromosomes) (Böök and Santesson), 1039 (Abst.)
- Malignant changes in body of uterus, cytological diagnosis (Wenig), 827 (Abst.)
- Masculinizing action of certain oral progestins, fetal (Grumbach, Ducharme, and Moloshor), 196 (Abst.)
- Maternal physiology, 495-505
- Maternal-fetal barrier (Reilly) 391 (Re-evaluation)
- Measurement, direct, of milk ejection pressure in unanesthetized lactating humans (Friedman), 119
- Meconium staining of ceroid in placenta (Ishizaki), 245
- Menorrhagia, intractable, wedge resection of uterine fundus in therapy (Dill and Jeffrey), 472
- Menstrual cycle, normal, excretion of pregnanetriol during (Fotherby), 1031 (Abst.)
- urinary pregnanetriol through (Pickett et al.), 401 (Abst.)
- Menstruation, delay, artificial (Husslein and Hofansl), 404 (Abst.)
- Mercury, effects, on human gestation (Afonso and de Alvarez), 145
- Mesodermal tumors of uterus, mixed (Carter and McDonald), 368
- (Radman and Korman), 1115
- Mesonephric clear cell carcinoma of ovary, clinical and pathologic study (Parker, Dockerty, and Randall), 417
- Metabolism, carbohydrate, in pregnancy (Freinkel and Goodner), 824 (Abst.)
- of estrone- C^{14} -16 sulfate in women (Twombly and Levitz), 889
- of human placenta in vitro, effects of anoxia (Roux and Villee), 224
- and protein binding of hydrocortisone, effect of estrogen on (Mills et al.), 1035 (Abst.)
- Metastases in Stage I carcinoma of cervix, distribution (Henriksen), 919
- Methotrexate in treatment of metastasizing choriocarcinoma (Buckle), 617 (Abst.)
- Microsomia fetalis (Javert), 579
- Milk ejection pressure, direct measurement, in unanesthetized lactating humans (Friedman), 119
- Miscarriage (*see also* Abortion)
- childbirth and, abnormal subendothelial blood vessels after, intractable uterine hemorrhage due to (Salm and Simons), 1031 (Abst.)
- Miscarriages, repeated, and listeriosis (Rost, Paul, and Seeliger), 195 (Abst.)
- Mole, hydatidiform, chorioadenoma and, 176-183
- after chorioadenoma destruens (Acosta-Sison), 176
- and choriocarcinoma, iodine metabolism in (Dowling, Ingbar, and Freinkel), 197 (Abst.)
- chorionepithelioma and, 516-535
- prerenal azotemia and (Schulman), 180
- relation to malignant disease of trophoblast (Schiffer, Pomerance, and Mackles), 516
- Mongol child, father and, chromosomal abnormalities in (Fraccaro, Kaijser, and Lindsten), 1038 (Abst.)
- girl with 46 chromosomes (Polani et al.), 1037 (Abst.)
- Monster, acardiac (Napolitani and Schreiber), 582
- Morbidity, febrile, factors affecting, cervical cone biopsy-hysterectomy sequence and (Cavanagh and Rutledge), 53
- Morphologic approach to fate of corpus albicans (Joel and Foraker), 314
- Mothers, diabetic, infants of (Rose), 1032 (Abst.)
- electrocardiogram in (Page et al.), 398 (Abst.)
- with toxemia (Kyank, Scheele, and Trommer), 829 (Abst.)
- under 20, perinatal mortality in, fetal, parental, and environmental factors associated with (Donnelly et al.), 663
- Mucosa, cervical squamous, normal and abnormal, protein characterization in—pH signature (Wheatley and Foraker), 1074
- Müllerian elements, well-developed, male intersex with ambiguous external genitals and (Bradbury and Bunge), 76
- Mumps and fertility in women (Stambolovic, Mirjanic, and Jeric), 406 (Abst.)

N

- Natriuresis and vascular tone in toxemia of pregnancy (Afonso and de Alvarez), 747
- Na^{24} uterine muscle clearance in late pregnancy (Landesman and Knapp), 92
- Necrosis, postpartum pituitary, endocrine gland function in, variations in (Smith and Howard), 197 (Abst.)
- Neonatal period, delivery and, nonprotein nitrogen following (Rimbach and Bonow), 407 (Abst.)
- Neonates, icterometer, Perspex, for (Gosset), 402 (Abst.)
- Neurological complication of pelvic perfusion with nitrogen mustard for cancer (Sholes), 481
- Newborn, fetus and, 554-595
- heart, monitoring (MacRae), 399 (Abst.)
- infant, blood oxygen in, oxygen administration to mother and its relation to (McClure), 554
- breathing pattern, effects of pregnancy and labor on (Calkins and Miller), 933
- jaundice in, depth (Cully, Waterhouse, and Wood), 402 (Abst.)
- Nitrogen mustard, pelvic perfusion with, for cancer, neurological complication (Sholes), 481
- Nodules, adrenal cortical and Leydig cell, in dysgenetic ovaries (Dougherty and Thompson), 317
- Nonprotein nitrogen after delivery and in neonatal period (Rimbach and Bonow), 407 (Abst.)
- Nonpuerperal inversion of uterus, acute (Webster), 478

- Nuclear morphology of human spermatozoa (Shettles), 824 (Abst.)
Nurseries, hospital, simple procedure to eliminate thrush from (Harris), 30
Nursery outbreak of staphylococcal disease, family spread, following (Klein), 824 (Abst.)

O

- Obstetric complications after cervical operation (Radman), 768
and gynecologic diseases (Krokfors), 1222 (Abst.)
Obstetrics, generalists', analysis (Miller), 813 (Pertinent comments)
and gynecology, combined textbook (Baird), 614 (B. rev.)
oxytocin, exogenous, in, value and danger (Buxton and Hausknecht), 32
practical (Lacomme), 191 (B. rev.)
Obstruction, intestinal, associated with pouches and fenestrae in broad ligament (Papas), 172
Office, endometrial biopsies in (Burge and Morley), 325
Operation and anesthesia, coagulation time during, shortening, meaning of prothrombin, antithrombin, and fibrinogen in (Wille), 405 (Abst.)
Operations, cervical, obstetrical complications after (Radman), 768
gynecological, internal hemorrhage following (Wesley), 6
pelvic, ovarian function after (TeLinde and Wharton), 844
for stress incontinence, assured success (Becker), 406 (Abst.)
Orange fluorochrome, acridine, in study of normal and malignant epithelium of cervix (Kaplan et al.), 1063
Ovarian carcinomas, primary, bilateral (Lee and Bowers), 1083
cyst contents, chemistry of (Odin), 195 (Abst.)
disease, polycystic (Evans and Riley), 873
dysfunction, treatment, with small doses of cortisone or hydrocortisone (Jefferies and Levy), 196 (Abst.)
dysgerminoma (Jackson), 442
function after pelvic operation (TeLinde and Wharton), 844
origin, possible, stromal endometriosis with (Benjamin and Campbell), 449
surgery, rational (MacFarlane), 683
teratoma, 46 chromosomes in (Galton and Benirschke), 198 (Abst.)
tumors, 1083-1095
equilateral distribution (Farrar and Bryan), 1085
Ovariectomy, bilateral, effect, on coronary artery disease and serum lipid levels (Oliver and Boyd), 400 (Abst.)
Ovaries, dysgenetic, adrenal cortical and Leydig cell nodules in (Dougherty and Thompson), 317
Ovary, Brenner tumors, bilateral (Farrar and Greene), 1089 (Kendall and Bowers), 439
cancer, primary (Kent and McKay), 430
carcinoma, hypernephroid (Welch and Hellwig), 426
mesonephric clear cell, clinical and pathologic study (Parker, Dockerty, and Randall), 417
histology, 314-320
tumors, 417-453
Ovulation time (Dresner and Cohen), 1049
Ovum going through Fallopian tube, independent (Friz and Mey), 827 (Abst.)
Oxalacetic transaminase, glutamic, and lactic dehydrogenase in pregnancy (Stone et al.), 104
Oxygen administration to mother and its relation to blood oxygen in newborn infant (McClure), 554
supply to human fetus, a symposium (Walker and Turnbull), 612 (B. rev.)
tension in cord blood after normal delivery (Sjöstedt, Rooth, and Caligara), 1223 (Abst.)

- Oxytocic agent used for induction of labor, effect, on fetal heart rate (Hess and Hon), 558
Oxytocin, exogenous, in obstetrics, value and danger (Buxton and Hausknecht), 32
synthetic, in obstetrics, clinical experience with (Haller), 405 (Abst.)
Oxytocinase, plasma aminopeptidase activity, in pregnancy and labor (Titus et al.), 1124

P

- Pain, pelvic, immediate postoperative, control, by local anesthetic infusion (McDonough and Bulaong), 466
Painful, psychic and, stimuli, effect, on reproductive organs of female rat (Soiva, Gronroos, and Rinne), 193 (Abst.)
Paraurethral glands, adenocarcinoma (DeHaan and Johnson), 1108
Parental, fetal, and environmental factors associated with perinatal mortality in mothers under 20 years of age (Donnelly et al.), 663
Parturition, blood progesterone levels in relation to (Short), 1036 (Abst.)
sequestration of red blood cells (Pritchard, Wiggins, and Dickey), 956
Pediatric findings, prenatal and, in family health clinic (Babbott, Stitt, and Salber), 305
gynecologic examining instrument, new, use in diagnosis of pediatric vaginitis (Hammond), 85
Pelvic exenteration for cervical cancer, team approach to (Mikuta and Murphy), 795
details of, experience with 75 cases (Schmitz et al.), 43
floor repair under lumbar epidural analgesia and promazine (Sparine) (Delaney), 1033 (Abst.)
lymphadenectomy for carcinoma of uterine cervix (Clairborne, Thornton, and Wilson), 672
operation, ovarian function after (TeLinde and Wharton), 844
radical, rupture of major vessels after (Brunschwig and Brockunier), 485
pain, postoperative, immediate, control, by local anesthetic infusion (McDonough and Bulaong), 466
perfusion with nitrogen mustard for cancer, neurological complication (Sholes), 481
Pelvis, lesions, ectopic pregnancy and, treatment, use of posterior colpotomy in diagnosis and treatment (Wooten), 727
Peridural anesthesia, continuous lumbar, in obstetrics (Hehre and Sayig), 1173
Perinatal mortality in mothers under 20 years of age, fetal, parental, and environmental factors associated with (Donnelly et al.), 663
Perineal lacerations, complete, median episiotomies and (Barter, Parks, and Tyndal), 654
fourth degree, and their sequelae (Brantley and Burwell), 711
Periplacental hemorrhage and renal necrosis in protein and choline deficient rats after progesterone (Moore), 1203
Pertinent comments, 184, 813
Pessary, intrauterine stem, use (Eddy and Ruiz-Bueno), 1025 (Re-evaluation)
pH signature—protein characterization in normal and abnormal cervical squamous mucosa (Wheatley and Foraker), 1074
Phenothiazine derivative (Temaril), lactation with (Johnson et al.), 124
Physical examination, routine, breast cancer detected by (Holleb et al.), 824 (Abst.)
Physiology of pregnancy, 92-113
Pituitary necrosis, postpartum, endocrine gland function in, variations (Smith and Howard), 197 (Abst.)

Pituitary—Cont'd

- stalk section, effect, on adrenal function of women with breast cancer (Van Wyk et al.), 1034 (Abst.)
- Placenta, cathepsine activity in cellular fraction of, in toxemia and postmaturity (Stark), 405 (Abst.)
- ceroid in, meconium staining (Ishizaki), 245
- and fetus (Hepner and Bowen), 195 (Abst.)
- guinea pig, transfer of carbohydrates across (Folkart, Dancis, and Money), 221
- of sodium and iodo-antipyrine across, in situ perfusion technique (Dancis and Money), 215
- human, in vitro, metabolism of, effects of anoxia on (Roux and Villee), 224
- isotope localization, in suspected placenta previa (Visscher and Baker), 1154
- localization, 1154-1172
- previa (Foote and Fraser), 10
- suspected, isotope localization of placenta in (Visscher and Baker), 1154
- Rh-antigen content (Bazsó and Gyöngyössi), 828 (Abst.)
- Placental degeneration during pregnancy, detection, serum-isocitric-dehydrogenase activity (Dawkins, MacGregor, and McLean), 198 (Abst.)
- function and dysfunction in advanced pregnancy, urinary estriol excretion and (Zondek and Pfeifer), 194 (Abst.)
- localization with radioactive iodinated human serum albumin (Shoss and Kratz), 1168
- physiology, 209-252
- souffle (Winkelbauer and Tatum), 1022 (Re-evaluation)
- transport in pregnant guinea pig (Money and Dancis), 209
- Plasma aminopeptidase activity (oxytocinase) in pregnancy and labor (Titus et al.), 1124
- fibrinogen, determination, rapid method (Adamis), 404 (Abst.)
- nonesterified fatty acids in pregnancy (Burt), 965
- and urine, steroid levels, effect of estrogen on (Herrmann, Schindl, and Bondy), 404 (Abst.)
- Pneumopolycystic endometritis (Perkins), 332
- Podophyllin, cervical epithelial changes, human, produced by (Kaminetzky), 1055
- Polycystic ovarian disease (Evans and Riley), 873
- Position changes, effect, on intensity and frequency of uterine contractions in labor (Caldeyro-Barcia et al.), 284
- Postabortal *Clostridium welchii* sepsis, pathologic physiology and treatment of (Davenport and Oken), 512
- Postafene, new antiemetic, experience with, in gynecology (Wolffram), 403 (Abst.)
- Posterior colpotomy, use, in diagnosis and treatment of ectopic pregnancy and other lesions of pelvis (Wooten), 727
- Postmaturity (Perlin), 1
- toxemia and, cathepsine activity in cellular fraction of placenta in (Stark), 405 (Abst.)
- Postmortem findings in cancer of cervix (Sotto, Graham, and Pickren), 791
- Postoperative pelvic pain, immediate, control, by local anesthetic infusion (McDonough and Bulaong), 466
- Postpartum breast engorgement and lactation, prevention, hormones used in, comparative controlled study (Markin and Wolst), 128
- patients, laxative study on, double-blind (Zuspan), 548
- psychoses (Boesky, Cross, and Morley), 1209
- Postspinal hypotension, influence, on fetal electrocardiogram (Ebner, Barcohana, and Bartoshuk), 569
- Potassium excretion, sodium and, in pre-eclampsia in response to sodium para-aminohippurate (Barnes and Davies), 742
- Potassium-calcium ratio and autonomic reactivity in pregnancy (Ruck), 830 (Abst.)
- Pouches and fenestrae in broad ligament, intestinal obstruction associated with (Papas), 172
- Pre-eclampsia and its relation to eclampsia (Böhm and Bruch), 828 (Abst.)
- sodium and potassium excretion in, in response to sodium para-aminohippurate (Barnes and Davies), 742
- Pre-eclamptic toxemia, symptoms, early (Dalton), 402 (Abst.)
- Pregnancies, multiple, 756-763
- twin (Waddell and Hunter), 756
- Pregnancy (see also Gestation)
- accidents, 263-273
- advanced, placental function and dysfunction, urinary estriol excretion and (Zondek and Pfeifer), 194 (Abst.)
- anemias, refractory (Holly), 946
- bleeding, femoral arteriography in assessment (Bernstine et al.), 1161
- carbohydrate metabolism in (Freinkel and Goodner), 824
- complications 536-547
- medical, 145-166
- surgical, 167-175; 764-774
- craniotomy in, hypothermia and hypotension during (Wilson and Sedzimir), 199 (Abst.)
- and delivery after extensive vulvectomy (Collins et al.), 167
- tuberculosis in (Schwarz), 826 (Abst.)
- in diabetic women, management, critical analysis (McLendon and Bottomy), 641
- early, ligation of inferior vena cava in (Rubin), 542
- ectopic, 274-283
- and other lesions of the pelvis, use of posterior colpotomy in diagnosis and treatment (Wooten), 727
- epilepsy and (Dimsdale), 617 (Abst.)
- excretion of pregnanetriol during (Ronan et al.), 1035 (Abst.)
- fatty metamorphosis of liver in, acute, complicating toxemia (Nardone, Stroup, and Gill), 258
- folic acid deficiency in (Chanarin et al.), 400 (Abst.)
- glutamic oxalacetic transaminase and lactic dehydrogenase in (Stone et al.), 104
- Hand-Schüller-Christian disease and (Trimble), 408 (Correspondence)
- high blood pressure and (Townsend), 1220
- human, effects of mercury on (Afonso and de Alvarez), 145
- interstitial and intrauterine (Vartan), 200 (Correspondence)
- (reply) (Bisca), 200 (Correspondence)
- and labor, effects, on breathing pattern of newborn infant (Calkins and Miller), 933
- normal, hypofibrinogenemia after (Quinlivan), 1032 (Abst.)
- plasma aminopeptidase activity (oxytocinase) in (Titus et al.), 1124
- late, Na²⁴ uterine muscle clearance in (Landesman and Knapp), 92
- latter half, treatment of biliary stasis in (Muscillo and Giorlando), 545
- normal, liver function during, alterations in (McNair and Jaynes), 500
- physiology, 92-113
- placental degeneration during, detection, serum-isocitric-dehydrogenase activity (Dawkins, MacGregor, and McLean), 198 (Abst.)
- plasma nonesterified fatty acids in (Burt), 965
- potassium-calcium ratio and autonomic reactivity in (Ruck), 830 (Abst.)
- and puerperium, blood volume changes in (Pritchard, Wiggins, and Dickey), 956
- transaminase activity during, changes in (Rimbach and Bonow), 1033 (Abst.)
- purpura fulminans complicating (Seinfeld, Hennigar, and Hellman), 161

Pregnancy—Cont'd

- of rats, effect of alloxan-induced diabetes on (Love, Kinch, and Stevenson), 536
- renal function in human (Assali, Dignam, and Long), 1035 (Abst.)
 - (Longo and Assali), 495
- rubella in (Gray), 1031 (Abst.)
- rupture of liver, spontaneous, during (Weingold and Thompson), 155
- successful, after bilateral adrenalectomy for Cushing's syndrome (Brownley, Warren, and Parson), 628
- term, creatinine transport between baby and mother (McGaughey et al.), 108
- test, clinically controlled result, with immature rats, its response to various drugs (Gillissen and Wagner-Koch), 828 (Abst.)
- tests, 596-600
- thyrotoxicosis and (Scott, Kuhl, and Carroll), 601 (Clinical problems)
- toxemia (*see* Toxemia of pregnancy)
- tubal, significance, in reproductive life (Škulj), 278
 - treatment (Rosenblum, Dowling, and Barnes), 274
- after tuberculosis of Fallopian tubes (Johnston and Liggett), 401 (Abst.)
 - in women over forty (Higdon), 38
- Pregnanediol excretion in urine, hormone-cytology of vagina and, for prognosis of threatened abortion (Timonen and Göltner), 406 (Abst.)
- Pregnanetriol, excretion, during normal menstrual cycle (Fotherby), 1031 (Abst.)
 - during pregnancy (Ronan et al.), 1035 (Abst.)
 - urinary ketosteroids and, in hirsutism (Lipsett and Riter), 1034 (Abst.)
 - throughout menstrual cycle (Pickett et al.), 401 (Abst.)
- Pregnant guinea pig, placental transport in (Money and Dancis), 209
 - uterus, axial torsion (Nowosielski and Henderson), 272
 - gunshot wound (Beattie and Daly), 772
- women, Guatemalan, from two socioeconomic groups, serum lipids and protein-bound iodine levels (Méndez et al.), 114
- Premature infants, hyperbilirubinemia in, and effect of vitamin K (Corner, Berry, and Neal), 1037 (Abst.)
- Premenstrual tension, study, in general practice (Appleby), 618 (Abst.)
- Prenatal and pediatric findings in family health clinic (Babbott, Stitt, and Salber), 305
- Prerenal azotemia and hydatidiform mole (Schulman), 180
- Presentation, fetal, transverse (Kramer and Skalley), 291
- Pressure, milk ejection, direct measurement, in unanesthetized lactating humans (Friedman), 119
- Pressures in human umbilical vessels in utero (Margolis and Orcutt), 573
- Primary adenocarcinoma of female urethra (Knoblich), 353
- cancer of ovary (Kent and McKay), 430
- carcinoma of Fallopian tube (Jefferiss), 616 (Abst.)
 - (Krugman and Fisher), 722
 - (Mozley and Baker), 64
 - hydrops tubae profluens as presenting symptom (Sinha), 616 (Abst.)
 - of ovaries, bilateral (Lee and Bowers), 1083
 - of uterine tube (Roddick and Danforth), 67
- Progesterone levels, blood, in relation to parturition (Short), 1036 (Abst.)
 - periplacental hemorrhage and renal necrosis in protein and choline deficient pregnant rats after (Moore), 1203
- Progestins, oral, fetal masculinizing action (Grumbach, Ducharme, and Moloshor), 196 (Abst.)
- Prolonged labor—necessary evil? (McCall and Hara), 296
- Promazine (Sparine) lumbar epidural analgesia and, pelvic floor repair under (Delaney), 1033 (Abst.)

- Protein binding of hydrocortisone, metabolism and, effect of estrogen on (Mills et al.), 1035 (Abst.)
- bound iodine levels, serum lipids and, of Guatemalan pregnant women from two socioeconomic groups (Méndez et al.), 114
- characterization in normal and abnormal cervical squamous mucosa—pH signature (Wheatley and Foraker), 1074
- and choline deficient pregnant rats, periplacental hemorrhage and renal necrosis in, after progesterone (Moore), 1203
- Proteins of liquor amnii (Abbas and Tovey), 619 (Abst.)
- Prothrombin, antithrombin, and fibrinogen, meaning, in shortening coagulation time during operation and anesthesia (Wille), 405 (Abst.)
- Pseudohermaphroditism, male, testicular feminizing syndrome (Zuspan), 454
- Psychic and painful stimuli, effect, on reproductive organs of female rat (Soiva, Gronroos, and Rinne), 193 (Abst.)
- Psychoses, postpartum (Boesky, Cross, and Morley), 1209
- Puerperal vaginal epithelium reactivity, to local estrogenic therapy (Luz), 463
- Puerperium, 548-553
 - pregnancy and, blood volume changes in (Pritchard, Wiggins, and Dickey), 956
 - transaminase activity during, changes in (Rimbach and Bonow), 1033 (Abst.)
- Purpura fulminans complicating pregnancy (Seinfeld, Henninger, and Hellman), 161
- Pyocolpos, six months' gestation complicated by (Kirkley, Gilbert, and McDaniel), 625

R

- Race-specific congenital malformation rates (Frazier), 184
 - (Pertinent comments)
- Radiation opaque, water-soluble medium, effect, on histopathology of endometrium (Jones and Woodruff), 337
 - therapy, supervoltage, symposium (Friedman, Brucer, and Anderson), 191 (B. rev.)
- Radioactive gold for cervical cancer (Taylor, Isbell, and Dean), 899
 - iodinated human serum albumin, placental localization with (Shoss and Kratz), 1168
- Radiology, therapeutic (Moss), 1218 (B. rev.)
- Radiotherapy in gynecology (Ries and Brutner), 192 (B. rev.)
- Re-evaluation, 391, 1022
- Refractory anemias of pregnancy (Holly), 946
- Renal and cardiovascular effects induced by intravenous infusion of magnesium sulfate (Kelly et al.), 1033 (Abst.)
 - function in human pregnancy (Longo and Assali), 495
 - (Assali, Dignam, and Long), 1035 (Abst.)
 - insufficiency, reversible (Atlas and Gaberman), 190 (B. rev.)
 - necrosis, periplacental hemorrhage and, in protein and choline deficient pregnant rats after progesterone (Moore), 1203
- Reproduction, genital function and, effect of audiogenic stimulation on (Zondek and Tamari), 1041
 - physiology, 1041-1054
- Reproductive life, significance of tubal pregnancy in (Škulj), 278
 - organs of female rat, effect of psychic and painful stimuli on (Soiva, Gronroos, and Rinne), 193 (Abst.)
- Research, medical, significant trends (Wolstenholme, O'Connor, and O'Connor), 1221 (B. rev.)
- Resection, wedge, of uterine fundus in therapy of intractable menorrhagia (Dill and Jeffrey), 472
- Retained abdominal lithopedion (Woodbury and Jarrett), 590

- Rh antigen content of placenta (Bazsó and Gyöngyössi), 828 (Abst.)
 erythroblastosis and ABO incompatibility (Caughey), 577
 immunized women, bioflavonoid compounds in (Jacobs), 825 (Abst.)
 Roentgens, rads, and riddles—symposium on supervoltage radiation therapy (Friedman, Brucer, and Anderson), 191 (B. rev.)
 Roster of American obstetrical and gynecological societies, 204
 Rubella in pregnancy (Gray), 1031 (Abst.)
 Rupture of liver, spontaneous, during pregnancy (Weingold and Thompson), 155
 of uteroovarian vein, spontaneous, during normal spontaneous delivery (Shuey), 764
 of uterus, gravid (Howard), 622 (Correspondence)
 in labo: (Wilken), 405 (Abst.)
 of vessels, major, postoperative, after radical pelvic operation (Brunschwig and Brockunier), 485

S

- Sarcoma of cervix, Hodgkin's (Retikas), 1104
 Sepsis, *Clostridium welchii*, postabortal, pathologic physiology and treatment (Davenport and Oken), 512
 Serology of fetal erythroblastoses (Speiser), 826 (Abst.)
 Serum albumin, radioactive iodinated human, placental localization with (Shoss and Kratz), 1168
 lipid levels, coronary artery disease and, effect of bilateral ovariectomy on (Oliver and Boyd), 400 (Abst.)
 lipids and protein-bound iodine levels of Guatemalan pregnant women from two socioeconomic groups (Méndez et al.), 114
 Sex chromatin pattern, male, hemophilia A in "girl" with (Nilsson et al.), 399 (Abst.)
 Sodium cyanide as cancer chemotherapeutic agent (Brown, Wood, and Smith), 907
 and iodo-antipyrine, transfer, across guinea pig placenta, in situ perfusion technique (Dancis and Money), 215
 and potassium excretion in pre-eclampsia in response to sodium para-aminohippurate (Barnes and Davies), 742
 South Atlantic Association of Obstetricians and Gynecologists, transactions of twenty-second annual meeting, 625
 Sparine (promazine), lumbar epidural analgesia and, pelvic floor repair under (Delaney), 1033 (Abst.)
 Spermatozoa concentration, initial fructose level, and initial per cent motility, influence, on fructolytic activity of bovine semen (Freund and Murphree), 198 (Abst.)
 human, nuclear morphology (Shettles), 824 (Abst.)
 speed, effect of various diluents (Harvey), 1036 (Abst.)
 Squamous cell carcinomas involving cervix, vagina, and vulva, multiple, multicentric origin (Marcus), 802
 Stage I carcinoma of cervix (Lock, Greiss, and Blake), 984
 metastases, distribution (Henriksen), 919
 Staphylococcal disease, family spread, following nursery outbreak (Klein), 824 (Abst.)
 Stein-Leventhal syndrome with associated adenocarcinoma of endometrium (Andrews and Andrews), 632
 hirsutism in, treatment (Mattingly, Mills, and Prunty), 1225 (Abst.)
 Sterility in men, transposition of viscera and (Arge), 1037 (Abst.)
 Sterilization, abortion and, therapeutic, committee (Savel and Perlmutter), 1192
 Steroid levels in plasma and urine, effect of estrogen (Herrmann, Schindl, and Bondy), 404 (Abst.)

- Stillbirth (Gray and Tupper), 1200
 Stress incontinence, colporrhaphy, anterior, for (Parrott), 381
 operation for, assured success (Becker), 406 (Abst.)
 Stromal endometriosis with possible ovarian origin (Benjamin and Campbell), 449
 Sulfamethoxypyridazine (Kynex) in urinary tract infections (Wargo, Teichner, and Ferguson), 490
 Sulfate, magnesium, renal and cardiovascular effects induced by intravenous infusion of (Kelly et al.), 1033 (Abst.)
 Supine hypotensive syndrome and abruptio placentae (Robbins, Estrara, and Russell), 1207
 Suppression of lactation with fluoxymesterone (Bare and Lippo), 138
 Surgeon and child (Potts), 190 (B. rev.)
 Surgery, ovarian, rational (MacFarlane), 683
 Surgical complications of pregnancy, 167-175; 764-774
 investigation of cervix with trachelotome (Spencer and Benson), 60
 techniques and complications, 466-489
 Sweden, legal abortion in (Aren), 615 (Abst.)
 Syndrome of dysmenorrhea and unilateral gynatresia in a double uterus (Merckel, Sucoff, and Sender), 70

T

- Temaril, phenothiazine derivative, lactation with (Johnson et al.), 124
 Tension, premenstrual, study, in general practice (Appleby), 618 (Abst.)
 Teratology society, formation, 623 (Items)
 Teratoma, ovarian, 46 chromosomes in (Galton and Benirschke), 198 (Abst.)
 Testicular feminizing syndrome in male pseudohermaphroditism (Zuspan), 454
 Testosterone, effect, on experimental endometrial hyperplasia (Alvizouri), 459
 Tests, pregnancy, 596-600
 Therapeutic abortion, indications (Jeffcoate), 619 (Abst.)
 sterilization and, committee (Savel and Perlmutter), 1192
 Thrush, simple procedure to eliminate, from hospital nurseries (Harris), 30
 Thyrotoxicosis and pregnancy (Scott, Kuhl, and Carroll), 601 (Clinical problems)
 Tissue, connective, changes, incident to cervical effacement (Danforth, Buckingham, and Roddick), 939
 Torsion, axial, of pregnant uterus (Nowosielski and Henderson), 272
 Toxemia of pregnancy (*see also* Eclampsia)
 253-262; 742-755
 diuretic treatment of fluid retention in (Friedberg), 195 (Abst.)
 experiments on question of genesis (Niendorf), 826 (Abst.)
 fatty metamorphosis of liver, acute, complicating (Nardone, Stroup, and Gill), 258
 natriuresis and vascular tone (Afonso and de Alvarez), 747
 and postmaturity, cathepsine activity in cellular fraction of placenta (Stark), 405 (Abst.)
 pre-eclamptic, symptoms, early (Dalton), 402 (Abst.)
 at University of Leipzig (Kyank, Scheele, and Trommer), 828 (Abst.)
 Trachelotome, surgical investigation of cervix with (Spencer and Benson), 60
 Tranquilizers (phenothiazine derivative, Temaril) in lactation (Johnson et al.), 124
 Transactions of American Gynecological Society, eighty-third annual meeting, 833
 of Society of Obstetricians and Gynaecologists of Canada, fifteenth annual meeting, 1

Transactions—Cont'd

- of South Atlantic Association of Obstetricians and Gynecologists, twenty-second annual meeting, 625
- Transaminase activity during pregnancy and puerperium, changes (Rimbach and Bonow), 1033 (Abst.)
- glutamic oxalacetic, and lactic dehydrogenase in pregnancy (Stone et al.), 104
- Transfer of carbohydrates across guinea pig placenta (Folkart, Dancis, and Money), 221
- of sodium and iodo-antipyrine across guinea pig placenta, in situ perfusion technique (Dancis and Money), 215
- Transplantation of fetal membranes in secondary amenorrhea, caused by nonreacting endometrium (Furuhjelm), 194 (Abst.)
- Transport, creatinine, between baby and mother at term (McGaughey et al.), 108
- placental, in pregnant guinea pig, technique for in situ study (Money and Dancis), 209
- Transverse fetal presentation (Kramer and Skalley), 291
- Trichomonas vaginitis, therapeutic mechanisms in treatment (Dill and Sheffery), 1101
- Triploidy (69 chromosomes), malformation syndrome in man associated with (Böök and Santesson), 1039 (Abst.)
- Trophoblast in cord blood and fetal circulation, detection (Salvaggio, Nigogosyan, and Mack), 1013
- malignant disease, hydatidiform mole in relation to (Schiffer, Pomerance, and Mackles), 516
- Tubal pregnancy, significance, in reproductive life (Skulj), 278
- treatment (Rosenblum, Dowling, and Barnes), 274
- Tuberculosis of Fallopian tubes, pregnancy after (Johnston and Liggett), 401 (Abst.)
- in pregnancy and delivery (Schwarz), 826 (Abst.)
- Tumors of ovary, 417-453
- Brenner, bilateral (Kendall and Bowers), 439
- (Farrar and Greene), 1089
- genital, three, in one woman (Sharma, Shrivastava, and Agarwal), 1111
- ovarian, 1083-1095
- equilateral distribution (Farrar and Bryan), 1085
- prevention clinic, methods and results (Waschke, Schwartz, and Marx), 829 (Abst.)
- of testis, estrogen-secreting interstitial cell, removal, transient recurrent gynecomastia after (Diczfalusy et al.), 196 (Abst.)
- unusual, 1104-1123
- of uterus, 365-373
- mixed mesodermal (Carter and McDonald), 368
- (Radman and Korman), 1115
- Twin pregnancies (Waddell and Hunter), 756
- Twins, sixty-five-day interval between births of (Drucker, Finkel, and Savel), 761

U

- Umbilical cord, human, length (Walker and Pye), 1224 (Abst.)
- vessels in utero, human, pressures in (Margolis and Orcutt), 573
- Urethra, female, diverticulum, carcinoma (Melnick and Birdsall), 347
- primary adenocarcinoma (Knoblich), 353
- vagina and, carcinoma, 341-364
- Urinary estriol excretion in pregnancy (Zondek and Pfeifer), 194 (Abst.)
- incontinence, 381-390
- ketosteroids and pregnanetriol in hirsutism (Lipsett and Riter), 1034 (Abst.)
- pregnanetriol throughout menstrual cycle (Pickett et al.), 401 (Abst.)
- tract dead space during normal gestation (Longo and Assali), 495

Urinary—Cont'd

- infections, sulfamethoxypyridazine (Kynex) in (Wargo, Teichner, and Ferguson), 490
- Urine, plasma and, steroid levels in, effect of estrogen on (Herrmann, Schindl, and Bondy), 404 (Abst.)
- Urologic study, value, in management of carcinoma of cervix (Burns, Everett, and Brack), 997
- Uterine contractions in labor, intensity and frequency, effect of position changes on (Caldeyro-Barcia et al.), 284
- fundus, wedge resection of, in therapy of intractable menorrhagia (Dill and Jeffrey), 472
- hemorrhage, intractable, due to abnormal subendothelial blood vessels after childbirth and miscarriage (Salm and Simons), 1031 (Abst.)
- mesodermal mixed tumors (Carter and McDonald), 368
- muscle clearance, Na²⁴, in late pregnancy (Landesman and Knapp), 92
- tube, primary carcinoma (Roddick and Danforth), 67
- Uteroovarian vein, rupture, spontaneous, during normal spontaneous delivery (Shuey), 764
- Uterus, double, dysmenorrhea and unilateral gynatresia in (Merkel, Sucoff, and Sender), 70
- duplex bicornis, chorioadenoma destruens in (Kern and Henriksen), 532
- gravid, rupture (Howard), 622 (Correspondence)
- inversion, nonpuerperal, acute (Webster), 478
- in labor, rupture (Wilken), 405 (Abst.)
- lymphangioma, cavernous (Salm), 365
- malignant changes in body of, cytological diagnosis (Wenig), 827 (Abst.)
- pregnant, axial torsion (Nowosielski and Henderson), 272
- gunshot wound (Beattie and Daly), 772
- tumors, 365-373
- mesodermal, mixed (Radman and Korman), 1115

V

- Vacuum extractor, effect, on fetal skull and brain (Fulst), 831 (Abst.)
- (ventouse) in obstetrics, use (Chalmers and Fothergill), 1225 (Abst.)
- Vagina, carcinoma, delay period (Lang, Menduke, and Golub), 341
- Escherichia coli isolated from, frequency and significance (Pérez-Miravete and Jaramillo), 80
- and urethra, carcinoma, 341-364
- vulva, and cervix, carcinomas, squamous cell, multiple, theory of multicentric origin (Marcus), 802
- Vaginal cuff, instrument for incising, new, during total abdominal hysterectomy (Pace), 470
- cytology and endometrial histology, correlation (Liu), 321
- epithelium, puerperal, reactivity, to local estrogenic therapy (Luz), 463
- flora, studies (Pérez-Miravete and Jaramillo), 80
- Vaginitis, 80-91; 1096-1103
- pediatric, new pediatric-gynecologic examining instrument for use in diagnosis (Hammond), 85
- trichomonas, therapeutic mechanisms in treatment (Dill and Sheffery), 1101
- Varicocele ligation and improved fertility (Scott), 1036 (Abst.)
- Vascular tone, natriuresis and, in toxemia of pregnancy (Afonso and de Alvarez), 747
- Vein, uteroovarian, spontaneous rupture of, during normal spontaneous delivery (Shuey), 764
- Vena cava, inferior, ligation, in early pregnancy (Rubin), 542
- Ventouse (vacuum extractor) in obstetrics, use (Chalmers and Fothergill), 1225 (Abst.)
- Vesicovaginal fistula, early repair, with preliminary cortisone treatment, results (Collins, Pent, and Jones), 1005

Vessels, major, rupture, postoperative, after radical pelvic operation (Brunschwig and Brockunier), 485
umbilical, human, in utero, pressures in (Margolis and Orcutt), 573
Vibrio fetus, cause of human abortion (Hood and Todd), 506
Viscera, transposition of, and sterility in men (Arge), 1037 (Abst.)
Vitamin K, effect of, hyperbilirubinemia in premature infants and (Corner, Berry, and Neale), 1037 (Abst.)
Volvulus, cesarean section complicated post partum by (Siegler and Rogatnick), 551
Vulva, cervix, vagina and, carcinomas, squamous cell, multiple, theory of multicentric origin (Marcus), 802
Vulvectomy, extensive, pregnancy and delivery following (Collins et al.), 167

Vulvovaginitis, yeast, mode of infection and reinfection in (de Sousa and Uden), 1096

W

Wedge resection of uterine fundus in therapy of intractable menorrhagia (Dill and Jeffrey), 472
Women over forty, pregnancy in (Higdon), 38
Wound, gunshot, of pregnant uterus (Beattie and Daly), 772

Y

Yeast vulvovaginitis, mode of infection and reinfection in (de Sousa and Uden), 1096
Young mothers, perinatal mortality (Donnelly et al.), 663
